The five "ultra-matt" finishes of the Fantin "Metal Design" collection are a perfect match for many Fenix NTM™ finishes in terms of colour, opacity and softness to the touch. This allows for monochrome products using Fantin solid metal structures and Fenix NTM™ resistant and restorable tops.

Le 5 finiture Ultra-matt della collezione Fantin "Metal Design" sono esattamente corrispondenti ad altrettante finiture Fenix NTM™, per colore, opacità e morbidezza al tatto. È così possibile ottenere prodotti monocromatici dalle solide strutture in metallo Fantin e con top resistenti e ripristinabili in Fenix NTM™.

Die fünf möglichen Oberflächen der Fantin Kollektion „Metal Design“ sind in harmonischer Abstimmung in Farb und Oberflächenempfindung mit den passenden Fenix NTM™ Oberflächen der Arbeitsplatte. So ist es möglich eine monolithische, unifarbene Gesamterscheinung der Fantin Strukturen mit dem widerstandsfähigen Arbeitsplattenoberflächen von Fenix NTM™ zu erzielen. Diese Arbeitsplatten wären im Bedarfsfall auch austauschbar.
