## Modular combinations / Componibilità moduli / Zusammensetzbarkeit Module

## Important notes / Note importanti / Wichtige Anmerkungen

There are endless possibilities for internal configurations. For the sake of brevity, only the standard compositions shown on the left have been included. Sheet metal shelves with adjustable heights and 2.5 cm (0.98") intervals.

Gli allestimenti interni sono infiniti. Per necessità di sintesi, sono state considerate alcune composizioni standard. Ripiani in metallo regolabili in altezza con passo 2.5 cm (0.98").

Die Standard-Inneneinrichtungen sind unendlich viele. Aus Platzgründen wurden die Standard-Kompositionen berücksichtigt, die hier links grafisch dargestellt sind. Regalböden aus Blech in der Höhe verstellbar mit Abstand 2.5 cm (0.98").

### Technical information

**Metal** Non-toxic powder coating for interior use, with no heavy metals. Cured in an oven at 190°C, following degreasing and phosphating. Guaranteed minimum thickness of 50 microns. Minimum resistance to salt spray of 200 hours (in accordance with the ASTM B117 standard). Not suitable for direct contact with food as envisaged in Italian Ministerial Decree 21/03/73. Before the coating is added, it is possible to assess whether to give the products a special treatment to make them more resistant to wear and exposure to the elements. There is a surcharge for this treatment. Requests for other RAL finishes can be considered.

**Wood** Exquisite types of wood with veneers and under leaf edges, on a 55 kg/m<sup>3</sup> (3.43 lb/ft<sup>3</sup>) PVC and aluminium foam sandwich panel structure. All panels are given an acrylic coating and are certified "formaldehyde free". Panck products are an exception because they are made with solid fir slats that are sanded and given a natural coating. Requests for other finishes for the wood will be considered.

**Melamine coated** Faced top with a fibre-board structure and a coloured or wood-effect melamine finish. Requests for other melamine finishes will be considered.

### Informazioni tecniche

**Metallo** Verniciatura per interni a polveri atossiche prive di metalli pesanti, con passaggio in forno a 190 °C, previo trattamento di sgrassaggio e fosfatazione. Spessore minimo garantito 50 micron, resistenza minima in nebbia salina pari a 200 ore (norma ASTM B117). Non idonea al contatto diretto con gli alimenti come previsto dal decreto italiano D.M. 21/03/73. Prima della verniciatura, è possibile valutare l'applicazione di un trattamento al fine di rendere i prodotti più resistenti all'uso e all'esposizione agli agenti atmosferici. Per tale trattamento è prevista una maggiorazione di prezzo. Altre finiture RAL valutabili su richiesta.

**Legno** Pregiate essenze di legno impiallacciato con bordatura sottofoglia, su struttura in lastra sandwich di alluminio e PVC espanso 55 kg/m<sup>3</sup> (3.43 lb/ft<sup>3</sup>). Tutti i pannelli ricevono una verniciatura acrilica e sono certificati "privi di formaldeide". Il prodotto Panck è un'eccezione in quanto è composto da doghe in massello di abete levigato e verniciato al naturale. Altre finiture in legno sono valutabili su richiesta.

**Nobilitato** Piano in nobilitato con struttura in pannello di fibre di legno rivestito da finiture melaminiche colorate o effetto legno. Altre finiture melaminiche sono valutabili su richiesta.

### Technische Informationen

**Metall** Die Lackierung der gift- und schwermetallfreien Pulverlacke für Innenbereiche erfolgt im Lackierofen bei 190 °C nach vorheriger Entfettung und Phosphatierung. Die garantierte Mindeststärke der Lackschicht beträgt 50 Mikron bei einer Mindestprüfungsdauer von 200 Stunden im Salznebel (ASTM-Norm B117). Nicht für den direkten Kontakt mit Nahrungsmitteln geeignet, gemäß Ministerialdekret vom 21.03.1973 i.d.g.F. Vor der Lackierung kann die Anwendung einer Behandlung abgewägt werden, um die Produkte für den Gebrauch und gegen Witterungseinflüsse widerstandsfähiger zu machen. Für diese Behandlung ist ein Preisaufschlag vorgesehen. Auf Anfrage können andere RAL-Finishes in Betracht gezogen werden.

**Holz** Hochwertiges Holzurnier mit folienbedeckter Umrandung auf einer Struktur aus Alu-Sandwichplatte und PVC-Schaum 55 kg/m<sup>3</sup> (3.43 lb/ft<sup>3</sup>). Alle Paneele erhalten eine Acryl-Lackierung und sind formaldehydfrei zertifiziert. Eine Ausnahme bildet das Produkt Panck, denn es besteht aus Holzlatten aus massivem, poliertem und natürlich lackiertem Fichtenholz. Andere Holzfinishes können auf Anfrage abgewägt werden.

**Melaminbeschichtet** Melaminbeschichtete Tischplatte bestehend aus einer Holzfaserverplatte, die mit farbigen Melaminfinishes oder Holzeffektfinishes überzogen ist. Andere Melaminfinishes können auf Anfrage abgewägt werden.

**Solid, sliding and reliable in the long term. A timeless Fantin product.**

**Platform** made of laminate fibreboard (white, ivory or grey). Height: 26 mm (1.02"). Galvanized sheet metal slides and steel wheels. No need of floor fixing.

**Wheels and base:** 100 x 40 x 2 mm (3.94" x 1.57" x 0.08") welded tube with steel wheels with a diameter of 80 mm (3.15") on shielded ball bearings.

**Load-bearing sides and ceilings:** 30 mm (1.18") sides closed at the top for each bay of the wardrobe. Ceilings for the top without intermediate gaps. All made of sheet metal with a thickness of 1 mm (0.04").

**Bracing flat crosspieces** with flat tie beams, centrally located on each bay.

**Galvanized fasteners** with a thickness of 2 mm (0.08"). They are fitted with two anchoring tabs that go into special slots on the side panels that are designed to prevent accidental dislodgement.

**Shelves** made of 0.7 mm (0.03") thick sheet metal with triple bends on the two front sides and omega reinforcements for an evenly distributed minimum load of 100 kg (220.5 lb). Independent, variable positioning with intervals of 2.5 cm (0.98"). Filing units and side pieces can be added.

**Dust guards** made of black ethylene propylene on the sides, attached with a screwless "dovetail" system. Metal dust guard profiles on the ceilings.

**Sliding:** the black plastic turning wheels with folding handles activate the shaft with a diameter of 20 mm (0.79") that makes the sliding wheels move.

**Safety systems:** a tubular telescopic anti-tilt system is fitted above the ceilings. An anti-crush system comes as standard on every turning wheel.

**The entire unit can be closed** thanks to the locks on the sliding doors and the lock on the first turning wheel.

This product is delivered unassembled.

**Solido, scorrevole e affidabile nel tempo. Un intramontabile prodotto Fantin.**

**Pedana** in pannello di fibre di legno laminato (bianco, avorio o grigio) di altezza 26 mm (1.02"). Scivoli in lamiera zincata e rotaie in acciaio. Non necessita di fissaggio a pavimento.

**Ruote e basamento:** tubolare saldato 100 x 40 x 2 mm (3.94" x 1.58" x 0.08"), dotato di ruote in acciaio diametro 80 mm (3.15") montate su cuscinetti a sfera schermati.

**Fiancate portanti e cieli:** Fiancate da 30 mm (1.18"), chiuse a tutta altezza per ogni campata dell'armadio. Cieli di chiusura superiore senza fessurazioni intermedie. Tutto in lamiera di spessore 1 mm (0.04").

**Crociere di controvento** in piatto con tiranti, in posizione centrale su ogni campata.

**Ganci** zincati di spessore 2 mm (0.08"). Il montaggio avviene tramite due alette di ancoraggio che si inseriscono nei particolari fori anti-sganciamento dei fianchi.

**Ripiani** in lamiera di spessore 0.7 mm (0.03"), triplice piegatura sui due lati frontali, con rinforzi ad omega per un carico minimo di 100 kg (220.5 lb) uniformemente distribuiti. Posizionamento variabile e indipendente con passo 2.5 cm (0.98"), integrabili con profili portacartelle e spondine.

**Guarnizioni antipolvere** in etilene-propilene nero nelle fiancate, fissate mediante sistema senza viti a "coda di rondine". Profili antipolvere metallici nei cieli.

**Traslazione:** i volantini in plastica nera, con manico pieghevole, azionano l'albero, dal diametro di 20 mm (0.79"), che trasmette il moto alle ruote.

**Sistemi di sicurezza:** antiribaltamento in tubolare telescopico, montato sopra i cieli. Antisciacciamento di serie su ogni volantino.

**Chiusura dell'intero impianto** mediante serratura sulle porte scorrevoli e serratura sul primo volantino.

Il prodotto viene fornito smontato.

**Solide, gleitend und dauerhaft zuverlässig. Ein zeitloses Fantin-Produkt.**

**Trittlfläche** aus laminiertem Holzfaserpaneel (weiß, elfenbeinfarben oder grau) mit einer Höhe von 26 mm (1.02"). Rutschen aus Zinkblech und Schienen aus Stahl. Keine Bodenbefestigung notwendig.

**Rollen und Untergestell:** verschweißte Metallrohren 100 x 40 x 2 mm (3.94" x 1.58" x 0.08") versehen mit Stahlrollen, Durchmesser 80 mm (3.15"), die auf abgedichtete Kugellager montiert sind.

**Tragende Seitenwände und obere Abdeckungen:** Seitenwände 30 mm (1.18"), geschlossen auf der gesamten Höhe für jede Spannweite des Schrankes. Obere Abdeckungen ohne Zwischenspalten. Alles aus 1 mm (0.04") starkem Blech.

**Kreuzverstrebrungen** mit Zugstangen in zentraler Position auf jeder Spannweite.

**Haken,** verzinkt, 2 mm (0.08") stark. Die Montage erfolgt mittels zwei Verankerungsbügel, die in die besonderen Bohrungen gegen das Aushaken der Seiten eingefügt werden.

**Blech-Einlegebögen,** 0.7 mm (0.03") stark, dreifacher Falz an beiden Vorderseiten mit Omega-Verstärkung für eine gleichmäßig verteilte Mindesttraglast von 100 kg (220.5 lb). Variable und unabhängige Positionierung mit einem Abstand von 2.5 cm (0.98"), ergänzbar mit Hängemappenprofilen und Seitenwänden.

**Staubschutz-Dichtungen** aus schwarzem Ethylen-Propylen an den Seiten und mittels System ohne "Schwalbenschwanzschrauben" befestigt. Staubschutzprofile aus Metall in den Abdeckungen.

**Verschiebung:** Die Handräder aus schwarzem Kunststoff mit klappbaren Handgriff betätigen die Welle mit einem Durchmesser von 20 mm (0.79"), welche die Bewegung an die Rollen überträgt.

**Sicherheitssysteme:** Umkippschutz aus Teleskoprohr, über den Abdeckungen montiert. Serienmäßige Quetschschutzeinrichtung an jedem Handrad.

**Verriegelung der gesamten Anlage** mittels Schloss an den Schiebetüren und Schloss am ersten Handrad.

Das Produkt wird unmontiert geliefert.
