Technical information

Metal Non-toxic powder coating for interior use, with no heavy metals. Cured in an oven at 190 °C, following degreasing and phosphating. Guaranteed minimum thickness of 50 microns. Minimum resistance to salt spray of 200 hours (in accordance with the ASTM B117 standard). Some finishes are suitable for direct contact with food as required by Italian Law Decree D.M. 21/03/73 and subsequent updates. Requests for other RAL finishes can be considered. On some finishes, any partial discolouration following rubbing and/or abrasion has absolutely no effect on the technical, appearance/colour and chemical/physical characteristics of the product. This phenomenon tends to diminish over the useful life of the product and does not in any case present a health hazard to users.

Informazioni tecniche

Alcune finiture sono idonee al contatto diretto con alimenti come previsto dal decreto italiano D.M. 21/03/73 e successivi aggiornamenti. Altre finiture RAL valutabili su richiesta. Su alcune finiture, l'eventuale parziale cessione di colore in seguito a strofinamento e/o abrasione non influisce assolutamente sulle caratteristiche tecniche, di aspetto/colore, e chimico-fisiche del prodotto. Tale fenomeno tende a diminuire nel corso della vita utile del manufatto e non comporta in alcun caso pericoli per la salute degli utilizzatori.
